### Introduction

1. At its twenty-fourth session, held on 23-24 June 1997, the Governing Council of the United Nations Compensation Commission (the "Commission") appointed Messrs. Robert R. Briner (Chairman), Alan J. Cleary and Lim Tian Huat as the Panel of Commissioners (the "Panel") charged with reviewing "E4" claims. The "E4" population consists of claims submitted by Kuwaiti entities, other than oil sector and environmental claimants, eligible to file claims under the Commission's "Claim Forms for Corporations and Other Entities" ("Form E").

2. The sixth instalment of 140 "E4" claims was submitted to the Panel on 9 August 1999, in accordance with article 32 of the Provisional Rules for Claims Procedure (S/AC.26/1992/10) (the "Rules").

3. Pursuant to article 38 of the Rules, this report contains the Panel's recommendations to the Governing Council concerning the sixth instalment claims.

#### I. OVERVIEW OF THE SIXTH INSTALMENT CLAIMS

4. The 140 sixth instalment claims were selected from the population of approximately 2,750 "E4" claims on the basis of criteria that include, inter alia, the size, volume and complexity of the claims, the legal, factual, and valuation issues raised by the claims, and the date of filing of the claims with the Commission.

5. The sixth instalment claims have alleged losses aggregating Kuwaiti dinars ("KD") 47,934,880 (approximately US\$165,864,637). The claimants have also asserted claims for interest in the amount of KD 1,968,173 (approximately US\$6,810,287) and claim preparation costs aggregating KD 235,515 (approximately US\$814,931).

6. The amount claimed by each claimant in the sixth instalment is less than KD 3 million (approximately US\$10 million). The nature of the legal and factual issues raised in each claim and the amount of documentation provided in support of each claim has allowed the Panel to complete its verification of the claims within 180 days.

7. All of the claimants in the sixth instalment operated in Kuwait prior to Iraq's invasion and occupation of Kuwait. Most claimants conducted trading operations dealing in a variety of goods ranging from consumer items to construction equipment. Some claimants were engaged in manufacturing and service industries. A few claimants are non-profit organizations and trade associations.

8. Claimants in this instalment have sought compensation for all the types of losses identified on Form E except two - loss of "business transaction or course of dealing" and loss of "income-producing property". The two most common losses asserted are loss of tangible property (mainly

stock, furniture, fixtures, equipment and vehicles) and loss of earnings or profits. Claimants have also sought compensation for uncollectible receivables, restart costs, interest and claim preparation costs as "other losses".

## II. THE PROCEEDINGS

9. Before the sixth instalment claims were submitted to the Panel, the secretariat undertook a preliminary assessment of the claims in accordance with the Rules. This review is described in paragraph 11 of the "Report and recommendations made by the Panel of Commissioners concerning the first instalment of 'E4' claims" (S/AC.26/1999/4) (the "First 'E4' Report"). The results of the review were entered into a centralized database maintained by the secretariat (the "Claims Database").

10. Originally 13 claims presented formal deficiencies and the secretariat issued notifications to these claimants pursuant to article 15 of the Rules. All formal deficiencies were corrected by the claimants.

11. A substantive review of the claims was undertaken to identify significant legal, factual and valuation issues. The results of the review, including the significant issues identified, were recorded in the Claims Database.

12. The Executive Secretary of the Commission submitted reports 26, 27 and 28 dated 11 January 1999, 26 April 1999 and 28 October 1999, respectively, to the Governing Council in accordance with article 16 of the Rules. These reports covered, inter alia, the sixth instalment of "E4" claims and presented the significant legal and factual issues identified in these claims. A number of Governments, including the Government of Iraq, submitted additional information and views in response to the Executive Secretary's article 16 reports.

13. At the conclusion of the (i) preliminary assessment; (ii) substantive review; and (iii) article 16 reporting, the following documents were made available to the Panel:

(a) the claim documents submitted by the claimants;

(b) the preliminary assessment reports prepared under article 14 of the Rules;

(c) information and views of Governments, including the Government of Iraq, received in response to the article 16 reports; and

(d) other information, such as legal briefing notes, deemed, under article 32 of the Rules, to be useful to the Panel for its work.

14. For the reasons stated in paragraph 17 of the First "E4" Report, the Panel retained the services of an accounting firm and a loss adjusting firm

as expert consultants. The Panel directed the expert consultants to review each claim in the sixth instalment in accordance with the verification and valuation methodology developed by the Panel. The Panel directed the expert consultants to submit to the Panel a detailed report for each claim summarizing the expert consultants' findings.

15. By its procedural order dated 9 August 1999, the Panel gave notice of its intention to complete its review of the sixth instalment claims and submit its report and recommendations to the Governing Council within 180 days of 9 August 1999. This procedural order was transmitted to the Government of Iraq and the Government of Kuwait.

16. Pursuant to article 34 of the Rules, additional information was requested from the claimants in order to assist the Panel in its review of the claims. Claimants who were unable to submit the evidence requested were asked to provide reasons for their inability to comply with such requests. All requests for additional information were directed through the Government of Kuwait's Public Authority for Assessment of Compensation for Damages Resulting from Iraqi Aggression ("PAAC"). The requests for additional information were made in relation to the entire "E4" claims population and not just the sixth instalment claims.

17. Most of the requests for additional information have been described in paragraphs 21-26 of the "Report and recommendations made by the Panel of Commissioners concerning the second instalment of 'E4' claims" (S/AC.26/1999/17) (the "Second 'E4' Report"). These requests for information are not restated in this report.

18. On 24 June 1999, claimants with goods in transit losses were asked to provide proof of payment for the goods shipped, in addition to Port Authority documents demonstrating that the goods were received in Kuwait. On 2 August 1999, PAAC replied requesting the identification of the specific claimants from whom this information was currently needed. On 13 August 1999, PAAC was provided with the names of claimants who were required to submit such information.

19. An additional level of verification was performed to determine if related claimants filed duplicate claims. This review is described in paragraph 18 of the "Report and recommendations made by the Panel of Commissioners concerning the fourth instalment of 'E4' claims" (S/AC.26/1999/18) (the "Fourth 'E4' Report").

20. Based on its review of the documents submitted and the additional information obtained, the Panel concluded that the issues presented by the sixth instalment claims had been adequately developed and that oral proceedings were not required to explore such issues further.

### III. LEGAL FRAMEWORK AND VERIFICATION AND VALUATION METHODOLOGY

21. The legal framework and the verification and valuation methodology applied to the evaluation of claims in this instalment is the same as that used in earlier "E4" instalments. This framework and methodology are discussed in paragraphs 25-62 of the First "E4" Report. The Second and Fourth "E4" Reports discuss additional legal and verification and valuation issues that were encountered in those instalments of "E4" claims. These various elements of the Panel's review are not restated in this report. Instead this report makes reference to sections in the previous "E4" reports where such issues have been addressed.

22. Where the Panel encountered new issues not addressed in prior "E4" reports, the Panel developed methodologies for verifying and valuing the losses. These new issues are discussed in the text of this report. The Panel's specific recommendations on the losses asserted in this instalment and the reasons therefor are set out in the annexes to this report.

23. Before discussing the Panel's specific recommendations for compensating the sixth instalment claims, it is important to restate that the Panel's approach to the verification and valuation of these claims balances the claimant's inability always to provide best evidence against the "risk of overstatement" introduced by shortcomings in evidence. In this context, the term "risk of overstatement", defined in paragraph 34 of the First "E4" Report, is used to refer to cases in which claims contain evidentiary shortcomings that prevent their precise quantification and therefore present a risk that they might be overstated.

### IV. THE CLAIMS

24. The Panel reviewed the claims according to the nature and type of loss identified. Therefore, the Panel's recommendations are set out by loss type. Reclassified losses have been dealt with in the section pertaining to the loss category into which the Panel reclassified the losses.

#### A. Contract

25. Three claimants in this instalment asserted loss of contract claims aggregating KD 148,710 (approximately US\$514,567).

26. Claims for loss of contract in this instalment did not relate to contracts with the Government of Iraq or to contracts requiring performance in Iraq. The claims did not raise any new legal or verification and valuation issues.

27. All three loss of contract claims were for costs incurred in relation to contracts stated to have been ongoing at the time of Iraq's invasion of Kuwait. The Panel has recommended compensation for such losses where (i) the costs were not recovered as a direct result of Iraq's invasion and

occupation of Kuwait, and (ii) the claims were supported by sufficient evidence to establish the facts and circumstances of the loss asserted.

28. The Panel's approach to the compensability of contract losses is stated in prior "E4" reports and the verification and valuation methodology adopted by the Panel for loss of contract claims is discussed in paragraphs 77-84 of the First "E4" Report.

29. The Panel's recommendations on contract losses are summarized in annex II.

#### B. Real property

30. Twenty-nine claimants in this instalment asserted claims aggregating KD 1,571,873 (approximately US\$5,439,007) for loss of real property. These claims related to damage to various owned and rented premises in Kuwait.

31. The claims for loss of real property in this instalment did not raise any new legal or verification and valuation issues. The compensability standards and the verification and valuation methodology adopted by the Panel for loss of real property claims are stated in paragraphs 89-101 of the First "E4" Report.

32. The nature of damage to the properties and the location of the affected properties in Kuwait established that the losses were a direct result of Iraq's invasion and occupation of Kuwait. Claims were either based on the actual costs incurred in repairing the properties or on estimates of such costs.

33. Most claimants submitted documents that were sufficient to establish their interest in the affected properties and the loss claimed. However, as was the case in earlier "E4" instalments, claimants generally did not exclude regular maintenance or depreciation costs from their claims. The Panel adjusted the claims to account for these costs, which would have been incurred in the normal course of business and were not a direct result of Iraq's invasion and occupation of Kuwait. Similar adjustments were made by the Panel in cases of unforced "betterment", as explained in paragraph 97 of the First "E4" Report.

34. In claims based on estimated repair costs, the Panel sought a reasonable explanation for the claimant's failure to repair or replace the affected property. Where such explanation was absent, the Panel adjusted the claim to offset the "risk of overstatement" created by this shortcoming.

35. The Panel's recommendations on real property losses are summarized in annex II.

C. Tangible property, stock, cash and vehicles

36. Tangible property losses are claimed by a majority of the sixth instalment claimants. The asserted losses, relating to stock, furniture and fixtures, equipment, vehicles and cash, aggregate KD 30,067,262 (approximately US\$104,038,969).

37. With regard to the compensability and the verification and valuation of these tangible property claims, the Panel applied the approach set out in paragraphs 108-135 of the First "E4" Report.

38. The claimants in this instalment generally submitted the same type of evidence encountered by the Panel in earlier "E4" instalments in relation to claims for loss of tangible property and stock. (See Second "E4" Report, paras. 55-64.)

39. Al-Tadamon Company filed a claim for loss of furniture and fittings. The claim was based on an estimate of the "market value" of the assets. The estimate was prepared by the claimant and not by any independent third party. The claimant's audited accounts for the periods preceding Iraq's invasion of Kuwait show a zero net book value for furniture and fittings. Given this historical net book value and the lack of sufficient alternative evidence on which to value the loss, the Panel has recommended no compensation for this claim.

40. Al-Nafisy Trading Co. sought compensation for damaged furniture. The claimant supported its claim by providing copies of invoices and payment receipts for furniture purchased after the liberation of Kuwait. The claimant stated that the damaged furniture had been purchased in 1989. However, the claimant's audited accounts did not corroborate this assertion. The claimant did not provide any other evidence to establish the purchase of the assets in 1989. In view of the insufficient evidence to establish the existence of the relevant assets, the Panel has recommended no compensation for this claim.

41. Al Sumait and Abdul Karim Trading Co. W.L.L. sought compensation for loss of stock. The claimant submitted an unsigned letter from its auditors, certifying the loss of stock. However, the claimant's audited accounts for the periods following the liberation of Kuwait did not disclose any extraordinary loss of stock. On 22 July 1999, the claimant was requested to provide clarifications in relation to its claim for loss of stock and a response was received from the claimant on 21 August 1999. The Panel found that the claimant's response did not sufficiently evidence the loss claimed. In view of the evidentiary shortcomings noted, the Panel has recommended no compensation for this stock claim.

42. The Union of Agricultural Products Co-operative Society also filed a claim for loss of stock. The claimant's accounts for 1990 showed stock as an asset. However, the claimant's audited accounts for the periods prior to and subsequent to Iraq's invasion and occupation of Kuwait indicated

that the claimant did not hold any stock. The claimant also did not provide sufficient evidence to support the "roll-forward" calculation used in its stock claim. In addition, the opening stock figure stated in support of the 1990 stock-holding was inconsistent with the lack of any closing stock figure in the 1989 accounts. In view of these evidentiary shortcomings and inconsistencies, the Panel has recommended no compensation for this stock claim.

43. Boodai & Al-Bitar Furniture Decoration Trading Co., filed a tangible property claim in relation to an unlicensed furniture manufacturing workshop. The workshop was operated entirely by the claimant's partners and was shown as an investment of KD 269,063 in the claimant's audited accounts for the period ending 1 August 1990. In its statement of claim, the claimant asserted that this investment was made up of tangible property (KD 29,200), stock (KD 149,863) and goodwill (KD 90,000). The claim related to the tangible property and stock portions of this investment.

44. The claimant did not provide any accounting records in relation to the workshop. The claimant did not provide any other evidence to substantiate its assertion that the investment shown in the accounts represented items of tangible property, stock or goodwill. The tangible property claim was based on a self-generated schedule listing items of furniture. The items and values in this schedule were not supported by sufficient evidence. Similarly, the claimant did not provide sufficient evidence to support the amount of stock stated to have been held. In addition, no information was provided to establish the basis of valuation or the historical levels of stock held at this workshop.

45. The claimant submitted a witness statement, issued by a workshop employee, stating that the workshop had been completely looted and damaged during Iraq's invasion and occupation of Kuwait. However, the damage to the workshop's assets could not be reconciled with the extraordinary losses reported in the claimant's post-liberation audited accounts. Further, the claimant submitted a contract establishing the sale of the workshop and all its contents in 1992. No evidence was provided to describe what items in the workshop had been sold or the basis on which such items had been valued in 1992.

46. In view of the insufficient evidence to substantiate the claim related to the workshop, the Panel has recommended no compensation for these tangible property and stock losses.

47. A majority of the claimants seeking compensation for cash losses sought to rely on witness statements from related parties without providing further evidence to substantiate their claims. Where claims for cash losses were not supported by contemporaneous evidence establishing the possession and amount of cash held on 2 August 1990, the Panel recommended no compensation.

48. Most claimants with loss of vehicle claims were able to establish their losses by submitting copies of deregistration certificates and additional documents such as post-liberation audited accounts and witness statements that substantiated the fact and circumstances of their losses.

49. The Panel's recommendations on tangible property, stock, cash and vehicle losses are summarized in annex II.

D. Payment or relief to others

50. Four claimants in this instalment submitted claims aggregating KD 19,870 (approximately US\$68,754) for payment or relief to others.

51. When reviewing claims for payment or relief to others the Panel applied the approach and verification and valuation methodology described in earlier "E4" reports. (See, for example, Second "E4" Report, paras. 70-74.) The Panel also kept in mind the Governing Council's specific observations on this matter in its decision 77 (S/AC.26/Dec.77 (1999)).

52. Tihama Al-Mona International sought compensation for emergency relief payments to employees. The claimant supported this claim by referring to an accounting entry that recognized relief payments. The accounting entry was based on a debit note issued by a related company. The debit note named some employees who received relief payments. A letter from the claimant to the related company named additional employees who received the same relief payments. No payment receipts or other documents establishing actual payment of amounts to the named employees were provided. Neither the related company's debit note nor the claimant's letter provided any details concerning the employees named, e.g., civil identification, or passport numbers. Because of the evidentiary shortcomings and inconsistencies regarding the employees paid, the fact that the claim was based on a related company transaction and the insufficiency of alternative evidence to establish actual receipt of sums by the employees, the Panel has recommended no compensation for this loss item.

53. The Panel's recommendations on the payment or relief to others claims are summarized in annex II.

E. Loss of profits

54. Nearly 90 per cent of the claimants in this instalment submitted claims aggregating KD 12,479,948 (approximately US\$43,183,211) for loss of profits.

55. Four significant legal and factual issues raised by the first instalment claims are all raised in the sixth instalment claims. These issues relate to the impact and assessment of (i) benefits received under the Government of Kuwait's post-liberation debt settlement programme, (ii) windfall or exceptional profits earned by claimants in the period immediately following the liberation of Kuwait, (iii) the indemnity period

for loss of profits claims, and (iv) claims for loss of profits selectively based on profitable lines of business. The conclusions reached by the Panel in relation to these issues are set forth in paragraphs 161-193 of the First "E4" Report. The Panel has applied these conclusions in its considerations and recommendations for the loss of profits claims in this instalment.

56. The verification and valuation methodology adopted by the Panel for loss of profits claims is stated in paragraphs 194-202 of the First "E4" Report.

57. Despite several requests, many claimants in the sixth instalment did not provide annual accounts for the three fiscal years prior to and following the end of Iraq's invasion and occupation of Kuwait. The Panel noted that, in some cases, the failure to submit some accounts was sufficiently explained, for example, where the claimant had commenced trading in the period between 1987 and 1990 or where the claimant had ceased trading following Iraq's invasion and occupation of Kuwait.

58. Loss of profits claims by businesses that failed to provide a full set of annual audited accounts for the relevant periods were regarded as presenting a "risk of overstatement", unless the failure to submit the accounts was sufficiently explained.

59. Mutawa & Sarraf & Partner W.L.L. claimed for loss of profits on a construction contract. The claim was originally filed as a claim for loss of contract and was reclassified to a loss of profits claim by the Panel. The claimant did not submit sufficient evidence to establish its historical profits during the period prior to Iraq's invasion and occupation of Kuwait. The claimant also did not provide alternative evidence, or other contemporaneous documentation, sufficient to support its assertion that the contract was expected to have been completed profitably. The claimant provided copies of its correspondence with regard to negotiations to resume the contract subsequent to the liberation of Kuwait. The correspondence submitted suggested that the contract was resumed post-liberation (and at increased prices). As such, the claimant was unable to demonstrate that any loss of profits was actually suffered on the contract. The business correspondence provided (relating to periods in 1992 and 1993) was also inconsistent with assertions made by the claimant that it did not resume its business post-liberation. In view of these evidentiary shortcomings and inconsistencies, the Panel has recommended no compensation for this claim.

60. Al-Osra Al-Arabia Trading Company was established in March 1990. The claimant based its loss of profits claim on unaudited accounting records for the three-month period preceding Iraq's invasion and occupation of Kuwait. The first set of audited accounts submitted by the claimant contained material qualifications relating to the claimant's failure to maintain regular accounting records. The Panel could not rely on the unaudited accounts submitted because of the material qualifications issued

by the claimant's auditors in relation thereto. Further, because of the claimant's limited trading history, the Panel did not have sufficient evidence to establish whether the claimant actually suffered any loss of profits. In view of the insufficiency of the evidence submitted, the Panel has recommended no compensation for this claim.

61. The Panel's recommendations on loss of profits claims are summarized in annex II.

#### F. Receivables

62. Twenty-five claimants in this instalment asserted claims for uncollectible receivables or "bad debts" aggregating KD 2,726,708 (approximately US\$9,434,976). All of these claims were for amounts owed by businesses or individuals located in Kuwait prior to Iraq's invasion.

63. As was the case in previous instalments of "E4" claims, most claimants sought compensation for debts that remained uncollected because debtors had not returned to Kuwait after liberation. The issue raised is whether the uncollected debts had become uncollectible as a direct result of Iraq's invasion and occupation of Kuwait.

64. The Panel reiterates its determination on this issue as set out in paragraphs 209-210 of the First "E4" Report, namely that claims for debts that have become uncollectible as a result of Iraq's invasion and occupation of Kuwait must demonstrate, by documentary or other appropriate evidence, the nature and amount of debt in question and the circumstances that caused the debt to become uncollectible.

65. The sixth instalment claims for uncollectible receivables were verified and valued in the manner described in paragraphs 211-215 of the First "E4" Report.

66. As discussed above, the Panel disallows claims that rely on the mere assertion that uncollected debts are ipso facto uncollectible because the debtors did not return to Kuwait. Nearly all of the claimants failed to provide evidence to demonstrate that their debtors' inability to pay was a direct result of Iraq's invasion and occupation of Kuwait. This shortcoming was brought to the attention of the claimants, in the context of the additional information requested from claimants (see para. 17 above). While a number of responses were received from claimants, none satisfied the above criteria.

67. Tariq Al-Nasrallah General Trading and Tenders Co. filed a claim in relation to goods that had been delivered under a pre-invasion contract with Kuwait's Ministry of Electricity and Water. The terms of this contract required the Ministry to pay the claimant as follows:

- (a) A 15 per cent advance payment on signing the contract;

(b) A 60 per cent payment due on proof of dispatch of the goods; and

(c) The remaining 25 per cent payable on delivery of the goods.

68. The claimant provided no information as to whether it had received the 15 per cent advance payment on signing the contract. The claimant also stated that, prior to Iraq's invasion and occupation of Kuwait, the Ministry had approved payment of the 60 per cent due on dispatch. However, after the liberation of Kuwait, the Ministry refused to pay this sum. As these sums related to amounts due and payable prior to Iraq's invasion and occupation of Kuwait, the Panel reclassified this portion of the claim as a claim for receivables.

69. The Panel has recommended no compensation for the receivables claims because (a) the claimant has not established that it suffered a loss in relation to the 15 per cent advance payment; and (b) the Ministry's subsequent refusal to pay the 60 per cent due on proof of dispatch was an independent intervening event. The Panel therefore found these losses were not a direct result of Iraq's invasion and occupation of Kuwait.

70. The loss of the remaining 25 per cent, payable on delivery, was due to the claimant's inability to establish complete delivery as a direct result of Iraq's invasion and occupation of Kuwait. The Panel has recommended compensating this amount after adjusting the claim for evidentiary shortcomings related to the valuation of the goods. (This portion of the claim that has been compensated has been reported as part of the claimant's loss of stock claim.)

71. The Panel's recommendations on bad debt claims are summarized in annex II.

#### G. Restart costs

72. Fifteen claimants in this instalment asserted claims aggregating KD 166,440 (approximately US\$575,917) for restart costs. The amounts claimed as restart costs have been reviewed using the methodology discussed in paragraphs 221-223 of the First "E4" Report and paragraphs 93-96 of the Second "E4" Report. (See also, Fourth "E4" Report, paras. 87-89.)

73. Project Management & Control Co. W.L.L. claimed, inter alia, for costs representing (i) a reward paid by the claimant company to its owner, and (ii) regular salary payments for the months of March and April 1991. The reward is stated to have been paid for efforts made by the company's owner to restore, after liberation, the company's trading contacts with private and government bodies. The Panel found that compensating the claimant for the reward payment would represent a double indemnity for the owner of the business. Further, the reward was paid pursuant to an independent business decision and was not a direct result of Iraq's invasion and occupation of Kuwait. The Panel also found that the claimant did not sufficiently establish that the regular salary payments for March

and April 1991 were incremental costs to the claimant, i.e., in excess of costs normally incurred by the claimant for this type of expense. For these reasons the Panel has recommended no compensation for this claim.

74. Arabian Engineer Electrical Co. filed a claim for interest paid on loans and overdrafts raised for a project that was cancelled as a direct result of Iraq's invasion and occupation of Kuwait. This claim was originally asserted as a claim for contract losses and was reclassified by the Panel to this loss category. The claimant sought compensation for the interest payable between 2 August 1990 and 31 December 1991, stating that interest was not payable after 31 December 1991 because the claimant participated in the Difficult Debt Settlement Program ("Program") discussed in paragraphs 162-174 of the First "E4" Report. The claimant submitted bank records setting out the interest due on the loans and overdrafts. These records clearly state that the interest would not apply if the claimant participated in the Program.

75. The Panel had found earlier that participants in the Program were not required to pay interest after 2 August 1990 in relation to debt that was purchased under the Program. (See First "E4" Report, para. 165.) The claimant's audited financial statements show the interest as payable at the end of 1991. However, as the Program was introduced after 1991, and the claimant admitted it participated in the Program, the Panel found that the claimant's participation suggested that the amount claimed was never paid. The claimant did not submit documentary evidence that showed actual payment of the interest. Consequently, the Panel has recommended no compensation for this amount.

76. Jasim Mohamad Abdul-Rahman Al-Bahar W.L.L. filed a claim in relation to sums paid in 1993 to two senior employees. The sums are stated to have been awards for the employees' loyalty to the company during the period of Iraq's invasion and occupation of Kuwait. The Panel found that these payments made in 1993 were the result of an independent business decision. They were neither relief payments (as claimed) nor payments that otherwise arose as a direct result of Iraq's invasion and occupation of Kuwait. Accordingly, the Panel has recommended no compensation for these payments.

77. Middle East Chemical Manufacturing Company K.S.C. claimed for costs incurred in recruiting a new general manager after its previous general manager refused to rejoin the company subsequent to the liberation of Kuwait. The claimant did not provide any evidence to establish that the previous general manager's refusal to rejoin the claimant company was a direct result of Iraq's invasion and occupation of Kuwait.

78. The same claimant also sought compensation for a portion of regular salary payments made between November 1991 and February 1992. The claimant stated that the portion of salary claimed represented the cost of cleaning operations carried out by regular staff. The Panel found that these costs represented regular salary payments made in the normal course of business. The Panel also found that the claimant had not provided sufficient evidence

to establish that the amount claimed represented an incremental cost to the claimant, incurred as a direct result of Iraq's invasion and occupation of Kuwait.

79. In view of the above, the Panel has recommended no compensation for these two amounts claimed by Middle East Chemical Manufacturing Company K.S.C.

80. The Panel's recommendations on restart costs are summarized in annex II.

#### H. Other losses

81. Nineteen claimants in this instalment asserted claims aggregating KD 754,069 (approximately US\$2,609,235) for other losses.

82. A few claimants have sought compensation for losses suffered as a result of their receipt of cancelled Kuwaiti dinar currency notes. These notes were received by claimants who continued to operate during Iraq's occupation of Kuwait. The Panel recommends compensation for these claims for the reasons stated in paragraphs 98-99 of the Second "E4" Report.

83. In relation to claims for losses incurred when claimants were forced to accept Iraqi dinars for products sold during Iraq's invasion and occupation of Kuwait, at an exchange rate of one Iraqi dinar to one Kuwaiti dinar, the Panel applied its recommendations stated in paragraphs 100-102 of the Second "E4" Report.

84. Abdul Rahman Mohamed Al-Bahar & Sons W.L.L. claimed for legal fees paid to obtain certain permits from courts in Kuwait. The permits allowed the claimant to open apartments that had been left locked by tenants fleeing Kuwait during Iraq's invasion and occupation of Kuwait. The Panel found that it was reasonable for the claimant to incur such legal fees to gain possession of the premises, so that they could be re-let and hence mitigate the claimant's losses. The Panel concurred with the finding of the category "E1" Panel of Commissioners that proven expenses for such purposes should be compensated. (See "Report and recommendations made by the Panel of Commissioners concerning the third instalment of 'E1' claims" S/AC.26/1999/13, paras. 439-441.) Further, this Panel also found that such legal fees represent an incremental cost incurred as a direct result of Iraq's invasion and occupation of Kuwait. For the above reasons, the Panel has recommended compensation for this loss.

85. Jasim Mohamad Abdul-Rahman Al-Bahar W.L.L. filed a claim in relation to losses described as open orders and miscellaneous expenses. The claimant has provided no documents that explain these losses or how these expenses were a direct result of Iraq's invasion and occupation of Kuwait. The Panel has recommended no compensation for the amounts claimed in view of the insufficient evidence provided.

86. The Arab Group for Equipment and Construction received a concrete pump as consignment stock in March 1990. The price of the equipment was treated as a liability in the claimant's 1990 financial statements as the machine was meant to be sold within six months and the proceeds used to pay for the equipment. However, the machine was stolen as a direct result of Iraq's invasion and occupation of Kuwait. The claimant submitted a payment receipt to establish that in 1993 it subsequently paid KD 120,766 to the supplier for the machine. An amount of KD 100,000 was included as an extraordinary loss in the claimant's audited accounts for 1991. As this claimant incurred the actual loss that was a direct result of Iraq's invasion and occupation of Kuwait, the Panel recommends compensation in full for the KD 100,000 claimed. The difference between the amount paid and the amount claimed is due to the exchange rates used by the claimant.

87. Mawarid Trading Co. W.L.L. filed a claim for salary payments made during the period of Iraq's invasion and occupation of Kuwait. The claimant was in the process of setting up business operations immediately prior to Iraq's invasion of Kuwait. As the claimant had not commenced trading on 2 August 1990, the salary payments were in the nature of start-up expenses. The Panel reclassified this claim to the category of other losses. The claimant provided sufficient evidence to establish payment of the expenses and the Panel has recommended compensating the claim for such costs. The Panel's recommended award has been adjusted to offset the "risk of overstatement" associated with the inability to determine when such start-up expenses would become regular operating costs recoverable from operating revenues.

88. Middle East Chemical Manufacturing Company K.S.C. filed a claim for royalties that it was due to pay. The agreement under which these payments were stated to have been due did not refer to any royalties. However, royalty payments were referred to in a letter sent to the claimant by the other party to this agreement. The letter stated that a sum of 5,500 pound sterling was payable under an invoice dated August 1990 and a further 4,500 pound sterling was payable under an invoice dated July 1991. The letter did not identify the periods in relation to which these royalty payments were due. No other evidence was provided to establish the basis on which such royalty amounts had been computed. Further, the documents submitted suggested that the royalty amounts claimed had not actually been paid by the claimant. The claimant submitted no other evidence to establish that it actually suffered a loss as a direct result of Iraq's invasion and occupation of Kuwait, in relation to the amount claimed. In view of the above, the Panel has recommended no compensation for this amount.

89. Claims for "other losses" that have been dealt with in prior "E4" instalments were reviewed in the manner stated in earlier "E4" reports. (See, for example, the Second "E4" Report, para. 108 dealing with the treatment of prepaid expenses.)

90. The Panel's recommendations on other losses are summarized in annex II.

## V. OTHER ISSUES

A. Applicable dates for currency exchange rate and interest

91. In relation to the applicable dates for currency exchange rate and interest, the Panel has adopted the approach discussed in paragraphs 226-233 of the First "E4" Report.

B. Claim preparation costs

92. The Panel has been informed by the Executive Secretary of the Commission that the Governing Council intends to resolve the issue of claim preparation costs in the future. Accordingly, the Panel has made no recommendation with respect to compensation for claim preparation costs.

## VI. RECOMMENDED AWARDS

93. Based on the foregoing, the awards recommended by the Panel for claimants in the sixth instalment of "E4" claims are set out in annex I to this report. The underlying principles behind the Panel's recommendations on claims in this instalment are summarized in annex II to this report. All sums have been rounded to the nearest KD and therefore the amounts may vary from the amount stated on Form E by 1 KD.

Geneva, 10 December 1999
