Annexes

Annex I: Recommended awards for the seventh instalment of "E4" claims - Reported by UNSEQ and UNCC claim numbers and claimant name	19
Annex II: Recommended awards for the seventh instalment of "E4" claims - Reported by claimant name and category of loss	26

Introduction

1. At its thirtieth session, held on 14-16 December 1998, the Governing Council of the United Nations Compensation Commission (the "Commission") appointed Messrs. Luiz Olavo Baptista ("Chairman"), Jean Naudet, and Jianxi Wang as the second Panel of Commissioners (the "Panel") charged with reviewing category "E4" claims. The "E4" population consists of claims submitted by Kuwaiti private-sector corporations and other entities, other than oil sector and environmental claims, eligible to file claims under the Commission's "Claim Forms for Corporations and Other Entities" ("Form E").

2. The seventh instalment of 139 "E4" claims was submitted to the Panel on 16 July 1999, in accordance with article 32 of the Provisional Rules for Claims Procedure (S/AC.26/1992/10) (the "Rules").

3. Pursuant to article 38 of the Rules, this report contains the Panel's recommendations to the Governing Council concerning the seventh instalment claims.

I. OVERVIEW OF THE SEVENTH INSTALMENT CLAIMS

4. The seventh instalment claims were selected from among the population of approximately 2,750 "E4" claims on the basis of criteria that include, inter alia, the size, volume and complexity of the claim and the legal, factual, and valuation issues raised by the claim.

5. The seventh instalment claims allege losses aggregating Kuwaiti dinars ("KD") 76,182,396 (approximately US\$263,606,907). The claimants also assert claims for interest aggregating KD 2,737,072 (approximately US\$9,470,837) and claim preparation costs aggregating KD 302,603 (approximately US\$1,047,069).

6. The amount claimed by each claimant in the seventh instalment is less than KD 3 million (approximately US\$10 million). The nature of the legal and factual issues raised in each claim and the amount of documentation provided in support of each claim allowed the Panel to complete its verification of the claims within 180 days.

7. All of the claimants in the seventh instalment operated in Kuwait prior to Iraq's invasion and occupation of Kuwait. Most claimants conducted trading operations dealing in a variety of goods ranging from consumer items to construction equipment. Some claimants were engaged in manufacturing and service industries. A few claimants are non-profit organizations.

8. The claimants in this instalment sought compensation for all types of losses identified on Form E except two: loss of "business transaction or course of dealing" and loss of "income-producing property". The two most

common losses asserted are loss of tangible property (mainly stock, furniture, fixtures, equipment and vehicles) and loss of earnings or profits. The claimants also sought compensation for uncollectible receivables, restart costs, interest and claim preparation costs and other losses.

II. THE PROCEEDINGS

9. Before the seventh instalment claims were submitted to the Panel, the secretariat undertook a preliminary assessment of the claims in accordance with the Rules. This type of review is described in paragraph 11 of the "Report and recommendations made by the Panel of Commissioners concerning the first instalment of 'E4' claims" (S/AC.26/1999/4) (the "First 'E4' Report"). The results of the review were entered into a centralized database maintained by the secretariat (the "Claims Database").

10. Of the 139 claims, nine claims presented formal deficiencies. The secretariat issued notifications to these claimants pursuant to article 15 of the Rules and all formal deficiencies were subsequently corrected by the claimants.

11. A substantive review of the claims was undertaken to identify significant legal, factual and valuation issues. The results of the review, including the significant issues identified, were recorded in the Claims Database.

12. The Executive Secretary of the Commission submitted reports 26 and 27 dated 11 January 1999 and 26 April 1999, respectively, to the Governing Council in accordance with article 16 of the Rules. These reports covered, inter alia, the seventh instalment of "E4" claims and presented significant legal and factual issues identified in these claims. Several Governments, including the Government of Iraq, submitted additional information and views in response to the Executive Secretary's article 16 reports.

13. At the conclusion of the (i) preliminary assessment; (ii) substantive review; and (iii) article 16 reporting, the following documents had been made available to the Panel:

- (a) the claim documents submitted by the claimants;
- (b) the preliminary assessment reports prepared under article 14 of the Rules;
- (c) information and views of Governments, including the Government of Iraq, received in response to the article 16 reports; and
- (d) other information, such as legal briefing notes, deemed under article 32 of the Rules, to be useful to the Panel for its work.

14. For the reasons stated in paragraph 17 of the First "E4" Report, the Panel retained the services of an accounting firm and a loss adjusting firm as expert consultants. The Panel directed the expert consultants to review each claim in the seventh instalment in accordance with the verification and valuation methodology developed by the Panel and to submit to the Panel a detailed report for each claim summarizing the expert consultants' findings.

15. By its procedural order dated 16 July 1999, the Panel gave notice of its intention to complete its review of the seventh instalment claims and submit its report and recommendations to the Governing Council within 180 days of 16 July 1999. This procedural order was transmitted to the Government of Iraq and the Government of Kuwait.

16. Pursuant to article 34 of the Rules, additional information was requested from the claimants in order to assist the Panel in its review of the claims. The claimants that were unable to submit the evidence requested were asked to provide reasons for their inability to comply with such requests. All requests for additional information were directed through the Government of Kuwait's Public Authority for Assessment of Compensation for Damages Resulting from Iraqi Aggression ("PAAC"). The requests for additional information were made in relation to the entire "E4" claims population and not just to the seventh instalment claims.

17. Most of the requests for additional information have been described in paragraphs 19-24 of the "Report and recommendation made by the Panel of Commissioners concerning the fourth instalment of 'E4' claims" (S/AC.26/1999/18) (the "Fourth 'E4' Report"). These requests for information are not restated in this report.

18. On 24 June 1999, the claimants that filed claims for loss of goods in transit were asked to provide proof of payment for the goods shipped, in addition to Port Authority documents demonstrating that the goods were received in Kuwait. On 2 August 1999, PAAC requested the identification of the specific claimants from whom this information was needed. On 13 August 1999, PAAC was provided with names of the claimants who were required to provide such information.

19. An additional level of verification was performed to determine if related claimants filed duplicate claims. This review is described in paragraph 18 of the Fourth "E4" Report.

20. Based on its review of the documents submitted and the additional information obtained, the Panel concluded that the issues presented by the seventh instalment claims had been adequately developed and that oral proceedings to further explore such issues were not required.

III. LEGAL FRAMEWORK AND VERIFICATION AND VALUATION METHODOLOGY

21. The legal framework and the verification and valuation methodology applied to the evaluation of claims in this instalment is the same as that used in earlier "E4" instalments. This framework and methodology were discussed in paragraphs 25-62 of the First "E4" Report. The Second and Fourth "E4" Reports discussed additional legal and verification and valuation issues that were encountered in those instalments. These various elements of the Panel's review are not restated in this report. Instead, this report makes reference to sections in the previous "E4" reports where such issues have been addressed.

22. In the limited instances where the Panel encountered new issues not addressed in prior "E4" reports, the Panel developed methodologies for verifying and valuing the losses. These new issues are discussed in the text of this report. The Panel's specific recommendations on the losses asserted in this instalment and the reasons therefor are set out in the annexes to this report.

23. Before discussing the Panel's specific recommendations for compensating the seventh instalment claims, it is important to restate that the Panel's approach to the verification and valuation of these claims balances the claimant's inability to always provide best evidence against the "risk of overstatement" associated with shortcomings in evidence. In this context, the term "risk of overstatement", as defined in paragraph 34 of the First "E4" Report, is used to refer to cases in which claims contain evidentiary shortcomings that prevent their precise quantification and therefore present a risk that they might be overstated.

V. THE CLAIMS

24. The Panel reviewed the claims according to the nature and type of loss identified. Therefore, the Panel's recommendations are set out by loss type. Reclassified losses have been dealt with in the section pertaining to the loss category into which the Panel reclassified the losses.

A. Contract

25. Eleven claimants in the present instalment asserted loss of contract claims aggregating KD 1,308,538 (approximately US\$4,527,813). The Panel's approach to the compensability of contract losses is stated in prior "E4" reports and the verification and valuation methodology adopted by the Panel for the loss of contract claims is discussed in paragraphs 77-84 of the First "E4" Report.

26. One claim for loss of contract in this instalment relates to a contract dated 20 November 1989 with an Iraqi company. Khalid Ali Al-Khorafi & Bros. Co. seeks compensation for labour costs and the cost of materials already incurred but not billed. The claimant was contracted to design, supply, fabricate and install steel structures for an Iraqi company's project in Iraq. The claimant had already started the fabrication of specified materials in Kuwait and delivered some of those materials to its client's project site in Iraq. Other than the narrative provided, no direct documentary evidence was provided by the claimant showing the repudiation or cancellation of the contract. However, the Panel determined that, inasmuch as the project site was in Iraq and part of the performance by the claimant (i.e., installation of steel structures) was to be made therein, it is reasonable to assume, in this particular case, that the claimant was not able to perform on part of the contract as a result of Iraq's invasion and occupation of Kuwait. Nonetheless, the claimant did not provide any documentary evidence for the quantification of the costs claimed to have been incurred. In view of this evidentiary shortcoming, the Panel recommends no compensation for this claim.

27. International Financial Line Company W.L.L. seeks compensation for losses related to a gold consignment held by the claimant on 1 August 1990. The consignor unilaterally fixed the price of the consignment stating that it did so to protect the interest of the claimant since the price of gold started to rise in the aftermath of Iraq's invasion of Kuwait. Thus, the claimant asserts that it was "forced" to buy the gold from the consignor at a higher price on account of Iraq's invasion. (A comparison of daily trading rates by the claimant later showed that the price fixed by the consignor was the highest traded price of gold during the period of Iraq's occupation of Kuwait.) However, the consignment contract stipulated that the price of the consignment would be negotiated and agreed upon by both parties. The Panel determined that the necessary and proximate cause of the claimant's loss was the act of the consignor in unilaterally fixing the price of gold that it was not contractually entitled to determine. The Panel recommends no compensation for this claim because the claimant failed to sufficiently establish the causal link between the asserted loss and Iraq's invasion and occupation of Kuwait.

28. Badr Alsultan & Brother Co. seeks compensation for what it describes as "loss of investment" in Al Ahmadi Pharmacy. At the time of Iraq's invasion of Kuwait, the claimant had an existing contract with Mr. Bakr Mohamed Bakr Ismail under which the latter was authorized to operate the claimant's pharmacy for a flat monthly fee. The contract stipulated that the pharmacy contained inventory that had to be returned to the claimant, in kind or in cash value, upon the termination of the contract. The claimant seeks compensation for the loss of the inventory of the pharmacy during Iraq's occupation. A similar claim was submitted in category "D" (Individual Claims for Damages above US\$100,000.) by Mr. Bakr Mohamed Bakr Ismail for lost

pharmaceutical inventory. The Panel determined that the latter held title to the inventory even if the claimant had the contractual right to demand payment from him for the value of the inventory at the end of the contract term. In light of these overlapping claims and the lack of direct interest of the claimant in the lost inventory, the Panel recommends no compensation for this loss of contract claim.

29. Kuwait International Investment Co. KSC seeks reimbursement for the loss of a downpayment made to a contractor in connection with the construction of a commercial shop. The downpayment was used by the contractor to purchase materials and to pay for the cost of labour in the initial phase of the construction work. The claimant provided a signed construction contract and voucher receipt for the downpayment. The claimant also provided correspondence from the contractor showing the latter's cancellation of the contract. However, the claimant failed to provide proof of purchase of the construction materials and of payment of labour costs. In view of this evidentiary shortcoming, the Panel recommends no compensation for this claim.

30. The Panel's recommendations with respect to contract losses are set out in annex II.

B. Real property

31. Twenty-nine claimants in this instalment asserted claims aggregating KD 3,724,881 (approximately US\$12,888,862) for loss of real property. These claims relate to damage to various freehold and leasehold premises in Kuwait.

32. The real property claims in this instalment do not raise any new legal or verification and valuation issues. The compensability standards and the verification and valuation methodology adopted by the Panel for loss of real property claims are stated in paragraphs 89-101 of the First "E4" Report.

33. The nature of damage to the properties and the location of the affected properties in Kuwait established that the losses were a direct result of Iraq's invasion and occupation of Kuwait. The claims were either based on the actual costs incurred in repairing the properties or on estimates of such costs.

34. Most of the claimants submitted documents that were sufficient to establish their interest in the affected properties and the loss claimed. However, as was the case in earlier "E4" instalments, the claimants generally did not exclude regular maintenance or depreciation costs from their claims. The Panel adjusted the claims to account for these costs, which would have been incurred in the normal course of business and were not a direct result of Iraq's invasion and occupation of Kuwait. There was no indication of any "betterment", as explained in paragraph 97 of the First "E4" Report, in any

of the claims, except in one claim where the claimant had already made provisions therefor in its calculation of the losses suffered.

35. In claims based on estimated repair costs, the Panel sought a reasonable explanation for the claimant's failure to repair or replace the affected property. Where such explanation was absent, the Panel adjusted the claim to offset the "risk of overstatement" created by this shortcoming.

36. The Panel's recommendations with respect to real property losses are set out in annex II.

C. Tangible property, stock, cash and vehicles

37. A majority of the seventh instalment claimants have claimed for tangible property losses. These losses include losses relating to stock, furniture and fixtures, equipment, vehicles and cash. The aggregate asserted amount for these losses is KD 43,911,596 (approximately US\$151,943,239).

38. The Panel's approach to the verification and valuation of tangible property losses depends on the nature of the asset affected. Accordingly, the approach adopted varies for stock, cash, vehicles and other tangible property losses. The verification and valuation methodology for these tangible property claims is stated in paragraphs 108-135 of the First "E4" Report. (See also, Second "E4" Report, paras. 53-54 and Fourth "E4" Report, paras. 43-44).

(a) Tangible property

39. Most of the claimants in the present instalment submitted audited accounts to establish the existence, ownership and value of the tangible assets damaged or lost as a direct result of Iraq's invasion and occupation of Kuwait. In establishing the fact and cause of the loss, the claimants relied on assertions in their statements of claim and witness statements. These assertions were generally corroborated by additional documents, such as photographs and independent survey reports. The Panel also relied on the claimants' post-liberation audited accounts. These accounts showed the losses of tangible property as extraordinary losses incurred as a direct result of Iraq's invasion and occupation of Kuwait, and as such provided additional independent verification of the loss.

40. A number of claimants sought to value their loss using estimated repair or replacement costs. As in the case of similar real property claims, such claims were found to present a "risk of overstatement" if the claimant did not provide sufficient evidence explaining why it had not repaired or replaced the assets concerned. In some cases the Panel was able to rely on the claimant's post-liberation accounts to determine whether the claimant had subsequently repaired or replaced the affected assets.

(b) Stock

41. For claimants asserting a loss of stock claim, the existence, ownership and value of stock lost were supported by copies of the claimants' audited accounts, original inventory purchase invoices and "roll-forward" calculations, as defined in paragraph 119 of the First "E4" Report.

42. As was the case for the first instalment of "E4" claims, successful claims for loss of goods in transit related to goods that were in Kuwait on the day of Iraq's invasion and that were subsequently lost. These claimants were able to establish the ownership, existence and loss of the goods by providing certificates issued by port authorities or shipping agents.

(c) Cash

43. As was the case for the first instalment of "E4" claims, successful claimants alleging cash losses were able to substantiate their claims by providing, inter alia, contemporaneous records establishing cash held on 2 August 1990, such as previous month-end cash balances, copies of daily bank deposit statements, cash-flow registers and monthly sales ledgers.

44. The claimants for whom no award has been recommended generally sought to rely on witness statements without providing any additional documents substantiating their claims.

(d) Vehicles

45. Almost all of the claimants were able to establish their ownership of lost vehicles, on the date of the loss, by providing copies of the deregistration certificates issued by the Government of Kuwait. The fact of loss was generally established by the deregistration certificates together with additional substantiating documents such as witness statements describing the circumstances of the loss and post-liberation audited accounts recording the loss of vehicles as an extraordinary item.

46. Where claimants did not provide deregistration certificates or any other documentation providing a detailed listing of the vehicles, the Panel recommends no compensation for the claim.

47. The asserted values of the vehicles lost were separately verified by the Panel against vehicle values contained in the M.V.V. Table, as defined at paragraph 135 of the First "E4" Report, or, for vehicles not listed in the M.V.V. Table, against other third party estimates. In the case of third party estimates, the Panel tested these estimates by applying alternative

valuation methods such as the net book value and depreciated replacement cost methods.

48. The Panel's recommendations with respect to tangible property losses are set out in annex II.

D. Payment or relief to others

49. Nine claimants in this instalment submitted claims aggregating KD 808,042 (approximately US\$2,795,993) for payment or relief to others.

50. When reviewing claims for payment or relief to others the Panel applied the same approach and verification and valuation methodology described in earlier "E4" reports. (See paragraphs 153-157 of the First "E4" Report; paragraphs 71-74 of the Second "E4" Report and paragraphs 59-64 of the Fourth "E4" Report.)

51. Several of the claimants seek reimbursement for redundancy payments or "termination indemnities" that were paid to their non-Kuwaiti employees in respect of the termination of those employees' employment contracts. Generally, the claimants provided schedules naming the employees who received relief payments. The claimants also provided the employees' civil identification numbers or passport numbers. In two claims, namely, House of Trade & Contracting Company and Abdul Aziz & Ali Yousef Al-Muzaini Company W.L.L., adjustments were made due to the lack of sufficient evidence. In lieu of receipts of payment, the claimants provided certifications from their respective auditors which state that a sample of the payment documents or receipts related to the indemnity payments have been examined and verified by the auditors. Without additional corroborative evidence, the Panel considers these claims to present risks of overstatement. One claimant, Constantine Halkias & Partner, Kuwait W.L.L., provided a similar certification from its auditors and a signed receipt of payment for part of the amount claimed. In this claim, adjustments were made for that part of the claim amount unsupported by proof of payment. Another claimant, Kuwait Fairs Company failed to provide payment receipts or other documents establishing actual payment of amounts to its named employees. In view of the lack of evidence to substantiate the claim, the Panel recommends no compensation for this claim.

52. A claim is also made by Otis Elevators Company/Kuwait KSC (Closed) for costs paid to help staff members travel to their home countries or to countries where they could find work during Iraq's occupation of Kuwait. The claimant also seeks compensation for costs paid to employees for school fees, rents, car rental, and other expenses. The claimant provided a letter from Otis Elevator International, Inc. which states the amount charged to the claimant for the repatriation of the claimant's employees and other expenses paid by Otis Elevator International, Inc. during the occupation. However,

the claimant failed to prove that the expenses incurred were incremental in nature rather than ordinary business costs. In addition, the claimant also failed to provide the employees' civil identification numbers, payment receipts or alternative evidence to establish actual payment of amounts to employees. In light of these evidentiary shortcomings, the Panel recommends no compensation for this claim.

53. Two claimants, Al Faiha Co-Operative and Kifan Co-Operative Society, seek compensation for the value of goods and cash that they freely distributed to the general public during the occupation period. The claimant cooperatives were established by the citizens of the residential areas in which they are located. Their declared main purpose is to meet the needs of their members and shareholders who are the residents in the area. In view of the claimants' declared objectives, the Panel finds that such distribution of goods and cash primarily resulted from the fulfillment of the claimants' business objectives and is thus part of the normal conduct of their operations. The goods were not lost to the claimants as a direct result of Iraq's invasion and occupation of Kuwait but rather as a result of the claimants' declared business objectives. Hence, the Panel finds that the asserted distribution of goods such as those made by the claimants are not compensable.

54. Tariq Al-Ghanim Co. Ltd. seeks reimbursement for the cost of meals provided for the month of August 1990 to the patients and staff of hospitals run by the Kuwait Ministry of Health. The claimant had been providing catering services to these hospitals since 1987. It was the practice of the responsible hospital officials to sign the receipt for meals provided during the week at the end of each week. The claimant continued to serve meals to the hospitals and made use of its consumable and perishable stock until 31 August 1990 when it ceased operations due to a lack of staff. However, due to the invasion of Kuwait by Iraq and the ensuing breakdown of law and order in the country, the claimant was unable to secure the necessary signatures for the continuation of the provision of meals to the hospitals. The decision to continue serving meals during the early period of the occupation was made by the claimant in the course of the contractual relations with its clients, in anticipation of the resumption of normal operations, and as a humanitarian act. As such, the Panel finds that the expenses being claimed are in the nature of temporary and extraordinary costs, incurred by the claimant in order to bridge a contractual gap when business relations with its customers were suspended as a result of Iraq's invasion and occupation. The claimant provided sufficient evidence to prove the existence of the stock used for the meals, and records that documented the cost of the meals provided. Likewise, proof was submitted showing the receipt of the meals by the patients and staff of the hospital during the month of August 1990. In view of the above findings, the Panel recommends compensation for this claim.

55. The Panel's recommendations with respect to payment or relief to others are set out in annex II.

E. Loss of profits

56. In excess of 80 per cent of the claimants in this instalment submitted claims aggregating KD 20,899,763 (approximately US\$72,317,519) for loss of profits.

57. Four significant legal and factual issues raised by the first instalment claims are all raised in the seventh instalment claims. These issues relate to the impact and assessment of (i) benefits received under the Government of Kuwait's post-liberation debt settlement programme, (ii) windfall or exceptional profits earned by the claimants in the period immediately following the liberation of Kuwait, (iii) the indemnity period immediately following the liberation of Kuwait, and (iv) claims for loss of profits selectively based on profitable lines of business. The conclusions reached by the Panel in relation to these issues are set forth in paragraphs 161-193 of the First "E4" Report. The Panel has applied these conclusions in its considerations and recommendations for the loss of profits claims in the present instalment.

58. The verification and valuation methodology adopted by the Panel for loss of profits claims is as set forth in paragraphs 194-202 of the First "E4" Report.

59. Of the fifteen claims for loss of profits for which the Panel recommends no compensation, twelve claims posted negative historical averages in their profit figures based on the financial statements provided for the three-year period prior to Iraq's invasion of Kuwait. Historical results that showed net losses from the business operations failed to support the claims for loss of profits and hence, the Panel recommends no compensation for these claims.

60. One claimant, Owais Al Ajmi Grocery Company, failed to provide any form of documentation or financial records of its business operations. While the claimant explains that it was not legally required to prepare financial accounts, it still failed to provide alternative bases for the computation of its alleged losses, such as internal accounts or purchase receipts and sales invoices. In view of such evidentiary shortcomings, the Panel recommends no compensation for this loss of profit claim. Likewise, Al Aqmar Alsinayyah Co., which asserts loss of projected rental income, failed to provide any financial records or alternative documentation on which to base the calculation of its historical profitability. The claimant calculated its loss by taking the projected rent for thirteen months for an apartment building that was under construction at the time of Iraq's invasion. The claimant did not provide direct documentation showing the existence or

construction of the building, nor were rental contracts submitted in support of the projected revenues. In view of the insufficiency of the evidence submitted, the Panel recommends no compensation for this loss of contract claim.

61. Fawaz Refrigeration & Air-conditioning Co. seeks compensation for expenses incurred during the promotion of a new line of business. The claim is based on the portion of expenses incurred in 1989 that was deferred to the years 1990 and 1991. The claim has been reclassified from "Other losses" given that the claimant's profitability is a function of its operating revenues less its operating expenses. However, the historical results of the claimant's operations show a net loss and thus, the Panel recommends no compensation for this loss of profit claim.

62. The Panel's recommendations with respect to loss of profits are set out in annex II.

F. Receivables

63. Sixteen claimants in this instalment asserted claims for uncollectible receivables or "bad debts" aggregating KD 4,091,779 (approximately US\$14,158,405). The majority of these claims were for amounts owed by businesses or individuals located in Kuwait prior to Iraq's invasion.

64. As was the case in previous instalments of "E4" claims, most of the claimants sought compensation for debts that remained uncollected because debtors had not returned to Kuwait after liberation. The issue raised is whether the uncollected debts had become uncollectible as a direct result of Iraq's invasion and occupation of Kuwait.

65. The Panel reiterates the "E4" Panel's determination on this issue as set out in paragraphs 209-210 of the First "E4" Report, namely that claims for debts that have become uncollectible as a result of Iraq's invasion and occupation of Kuwait, must demonstrate, by documentary or other appropriate evidence, the nature and amount of debt in question and the circumstances that caused the debt to become uncollectible.

66. The seventh instalment claims for uncollectible receivables were verified and valued in the manner described in paragraphs 211-215 of the First "E4" Report.

67. As discussed in the First "E4" Report, the Panel disallows claims that rely on the mere assertion that uncollected debts are ipso facto uncollectible because the debtors did not return to Kuwait. A number of claimants failed to disclose the nationalities of their debtors or provide evidence to demonstrate that their debtors' inability to pay was a direct result of Iraq's invasion and occupation of Kuwait. This shortcoming was

brought to the attention of the claimants in the context of the additional information requested from the claimants by the secretariat (see para. 17 above). While a number of responses were received from the claimants, none satisfied the above criteria.

68. The Panel's recommendations with respect to bad debts claims are set out in annex II.

G. Restart costs

69. Ten claimants in this instalment asserted claims aggregating KD 476,976 (approximately US\$1,650,436) for restart costs. The amounts claimed as restart costs have been reviewed using the methodology discussed in paragraphs 221-223 of the First "E4" Report and paragraphs 93-96 of the Second "E4" Report. (See also, Fourth "E4" Report, paras. 87-89.) Thus, the Panel verifies whether the claim is a direct result of Iraq's invasion and occupation of Kuwait and is supported by proof of payment for the items claimed. In this regard, the Panel looks for similar evidence of payment to that required in the case of claims for payment of relief to others. The Panel disallows amounts claimed that are not supported by sufficient documentary evidence to prove that payments were actually made by the claimant. The Panel then verifies whether the cost is an incremental cost to the claimant, i.e., in excess of costs normally incurred by the claimant for this type of expense. Finally, the Panel considers whether the claimant has taken appropriate steps to mitigate its loss.

70. The Panel encountered claims in this category for the costs of returning employees to Kuwait, including airfares and expenses for recruiting new employees, costs of cleaning-up the claimant's premises to restart its business operations and for setting up temporary offices outside Kuwait during the occupation period.

71. In a few claims, no documentation was provided to support the contention that the asserted expenses had been incurred by the claimant or that the expenses were incremental in nature. In the claim by Kuwait Lube Oil Manufacturing Co., reimbursement is sought for, among others, spare parts, hotel expenses, rental car expenses, official fees, various costs and rental expenses for a temporary office in London which enabled the claimant to maintain contact with its supplier during the occupation period. Except for the asserted rental expenses, the claimant failed to provide any explanation concerning the other expenses included in the claim. The claimant provided a schedule of expenses and invoices that do not show whether the expenses were incremental costs to the claimant. In addition, the schedule and the invoices do not disclose any rental expenses for a temporary office in London. With respect to the expense for the purchase of office stationery, however, the Panel finds the expense to be reasonable and sufficiently substantiated by the claimant and hence, recommends compensation

therefor. In the claims submitted by Asia Electro Mechanical Co. Ltd. and Al Intisar Trading Co. for costs related to recruiting or returning personnel to Kuwait, the claimants failed to provide sufficient evidence that the costs had been incurred, nor provide information on the employees' civil identification numbers. In view of such evidentiary shortcomings, the Panel recommends no compensation for these claims for restart costs.

72. The Panel's recommendations with respect to restart costs are set out in annex II.

H. Other losses

73. Fifteen claimants in this instalment asserted claims aggregating KD 960,821 (approximately US\$3,324,640) for other losses.

74. A few claimants seek compensation for losses suffered as a result of their receipt of cancelled Kuwaiti dinar currency notes. These notes were received by the claimants who continued to conduct business during Iraq's occupation of Kuwait. The Panel recommends compensation for these claims for the reasons stated in paragraphs 93 and 94 of the Fourth "E4" Report.

75. In relation to claims for losses incurred when the claimants were forced to accept Iraqi dinars for products sold during Iraq's invasion and occupation of Kuwait at an exchange rate of one Iraqi dinar to one Kuwait dinar, the Panel applied the recommendations stated in paragraphs 95-97 of the Fourth "E4" Report.

76. Other claims were for rents paid in advance for shop premises for the months during the period of Iraq's occupation. The Panel notes that such payments are "sunk" costs that were incurred prior to Iraq's invasion and occupation of Kuwait. Furthermore, the Panel notes that any damages suffered by the claimant in this regard (e.g., profits lost due to the claimant's inability to use its premises) should be reflected in a claim for loss of profits. The Panel applied this same approach in its analysis of other claims for pre-paid expenses. Accordingly, the Panel finds that such claims are not compensable.

77. Austrian House for Lighting & Electrical Co. Kuwaiti Company W.L.L. seeks compensation for bank charges associated with the opening of letters of credit that were not fulfilled as a result of Iraq's invasion and occupation of Kuwait. The claimant did not demonstrate that the amounts claimed are extraordinary amounts, i.e., that they constitute incremental costs over and above similar costs normally incurred in the course of its business and therefore, the Panel recommends no compensation for this claim.

78. Kuwait Motoring Company seeks compensation for depreciation on its fixed assets, incurred during Iraq's invasion and occupation of Kuwait. The

Panel recommends no compensation for depreciation, as this is a normal cost incurred in the course of claimant's operations.

79. International Financial Line Company W.L.L. seeks compensation for travellers cheques and personal cheques in different currencies taken from its safe. One of the claimant's main activities was the purchase of such cheques. The claimant normally made its purchases from Saturday to Thursday and then remitted the cheques for collection on that same Thursday. Given that the date of the invasion fell on a Thursday, the Panel considers it reasonable that the claimant would have had cheques for that week remaining in its safe. The claimant provided a witness statement attesting to the stolen cheques, a listing of the cheques lost, the currency in which the cheques were drawn, and the invoices of cheques purchased immediately prior to the invasion. It is not possible to distinguish, from the schedule and invoices provided, which of the purchases listed pertain to purchases of personal cheques and which are for travellers cheques. The claimant states that it tried to collect on the personal cheques but was either unsuccessful in locating the issuers thereof or was refused payment by those it had located. Similarly, the claimant stated that it contacted the foreign banks that issued the travellers cheques but was not able to recover any amount from them since it failed to provide sufficient information to the banks concerning the sellers of the travellers cheques. The claimant failed to submit documentary evidence of its correspondence with the foreign banks and with the issuers of the personal cheques other than the narrative provided. Insofar as the losses relating to the purchase of personal cheques are concerned, the Panel considers such cheques to be debts owing to the claimant and hence, applies the same evidentiary standards required under a bad debts claim. In this instance, the claimant failed to demonstrate that the issuers of the personal cheques had become insolvent or that their failure to pay was a direct result of Iraq's invasion of Kuwait. As regards the losses pertaining to the travellers cheques, the claimant's inability to recover was directly caused by its failure to keep records of the details of the sellers of the travellers cheques. Thus, the Panel finds that the claimant has failed to sufficiently establish the causal link between its asserted losses and Iraq's invasion and occupation of Kuwait. In view of the stated evidentiary shortcoming and failure to prove direct causation, the Panel recommends no compensation for this claim.

80. Abdelrahman Mulla Hussain Sons & Partners Co. seeks reimbursement for payment made to a construction contractor for losses incurred by the contractor during Iraq's occupation of Kuwait while working on a project for the claimant. The claimant voluntarily reimbursed the contractor for these expenses so that the contractor would continue with the project. The claimant did not show whether it would have suffered losses if the contractor had suspended the construction project. In view of the failure to sufficiently establish the causal link of the asserted losses to Iraq's

invasion and occupation of Kuwait, the Panel recommends no compensation for this claim.

81. The Panel's recommendations with respect to other losses are set out in annex II.

V. OTHER ISSUES

A. Applicable dates for currency exchange rate and interest

82. In relation to determining the applicable dates for the currency exchange rate and interest, the Panel adopts the approach discussed in paragraphs 226-233 of the First "E4" Report.

B. Claim preparation costs

83. The Panel has been informed by the Executive Secretary of the Commission that the Governing Council intends to resolve the issue of claim preparation costs in the future. Accordingly, the Panel makes no recommendation with respect to compensation for claim preparation costs.

VI. RECOMMENDED AWARDS

84. Based on the foregoing, the awards recommended by the Panel for the claimants in the seventh instalment of "E4" claims are set out in annex I to this report. The underlying principles behind the Panel's recommendations on claims in this instalment are summarized in annex II to this report. All sums have been rounded to the nearest KD and therefore the amounts may vary from the stated amount on Form E by 1 KD.
